Through rapid developments in commerce, transportation and communication, people once separated by space, language and politics are now interwoven into a complex global system (Friedman, 2005). With the rise of new technology, local populations, businesses and states are better equipped toHighlights the complex, contested, and contingent ways new technologies are being used by today's youth in a digital and global age. This text presents research that investigates the ways in which student use of technology mediates and complicates their learning about the world, its people, and global issues.New Directions in Social Education Research The Influence of Technology and Globalization on the Lives of Students.
