

Download Aircraft Of The Aces 81 Griffon Spitfire Aces Aircraft Of The Aces

The Mk XII was the first Spitfire powered by a Griffon engine to go into service. The first of 100 Supermarine-built production aircraft started appearing in October 1942; two RAF squadrons in total were equipped with the XII. A small motor boat tows flying boat A78 towards San Andrea Island, location of the Venice seaplane station, shortly after the famous 4 May 1918 action that had brought about its demise. The Supermarine Spitfire is a British single-seat fighter aircraft used by the Royal Air Force and other Allied countries before, during, and after World War II.
