

# Download History Of Internet

This Internet Timeline begins in 1962, before the word 'Internet' is invented. The world's 10,000 computers are primitive, although they cost hundreds of thousands of dollars. The history of the Internet begins with the development of electronic computers in the 1950s. Initial concepts of wide area networking originated in several computer science laboratories in the United States, United Kingdom, and France. The U.S. Department of Defense awarded contracts as early as the 1960s, including for the development of the ... This site provides a comprehensive reference about the Internet and its main technologies. It provides the most detailed description of the Internet's human history available online, gathered in the late 1990's before it disappeared from the net. [2019] Welcome to The Internet History Sourcebooks Project, a collection of public domain and copy-permitted historical texts presented cleanly (without advertising or excessive layout) for educational use., History Of Internet.
