

# Download Identification In Life And Literature

Identification is a psychological process whereby the individual assimilates an aspect, property, or attribute of the other and is transformed wholly or partially by the model that other provides. The criminal justice system relies heavily on eyewitness identification for investigating and prosecuting crimes. Psychology has built the only scientific literature on eyewitness identification and has warned the justice system of problems with eyewitness identification evidence. (Linnaeus, 1758) - Blue whale Distinctive Characteristics The blue whale is the largest animal ever known; however, its size substantially overlaps with that of adult fin and sei whales.
